

Hazardous Area Certified Products Overview

Overview

Worldwide economic growth, depletion of oil reserves, and continued investment in safety systems are driving the demand for oil and gas production equipment. This growing need is pushing producers to seek rugged and reliable control equipment. Barksdale's control products are designed to meet this challenge.

Barksdale has the advantage of over 60 years of experience, production centers in America and Europe, sale centers in China and India and a global network of technology centers and support representatives. With all of this as a foundation, it's easy to see why we stand by our motto: "Control every move."

Hazardous Location Approvals	Electronic Pressure Transmitters			Mechanical Pressure Switches			Mechanical Temperature Switches				Level Control		Flow	Valve			
	UDS7-BX	423X 425X 426X	443 445 446	433 435 436	D1X D2X	B1X B2X	P1X 9671X 9681X	9692X	T1X/T2X L1X	TXR TXL	T9692	USE 3200 Level Trans- mitter	UNS 2000 1000 Level Switch	Bilge Guard SB4	Bypass Level Indicator	Flow Switches	Access- ory for Series II & III-L Model 371 MT7
